

QR Code

Make a QR Code that makes it easy for people
send you their catalog info

What is a QR Code and why do I want one?

A QR Code is a type of matrix barcode that can be scanned by a smartphone and used to convey information or execute instructions. Typically, a smartphone camera is used as a QR code scanner, displaying the code and converting it to some useful form (such as a standard URL for a website or, in this case, the email address to send you a catalog to unsubscribe from)

Open the camera on your phone and put this QR Code in view and see what happens ...

You can make your own and use it in printed or electronic fliers, in parent newsletters and emails. Anywhere you want to find people who will send you their catalogs. Let's get started ...

Step 1

Sign In QR Code Generator

Visit

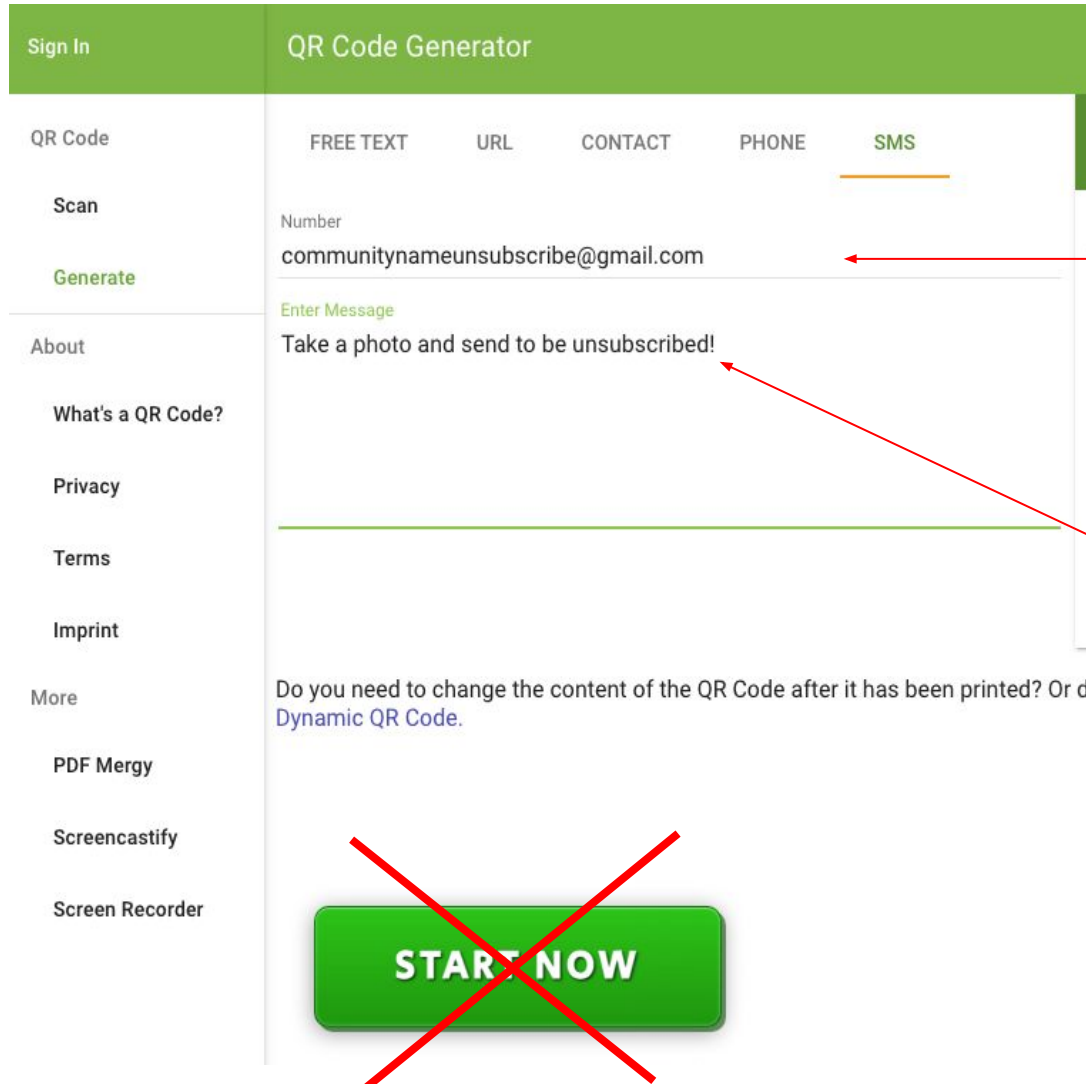

www.the-qrcode-generator.com

Select SMS

DO NOT Click **START NOW**

(this is a sneaky ad)

Step 2: Add your email address

The screenshot shows the 'QR Code Generator' web application. The interface has a green header with 'Sign In' and 'QR Code Generator'. A left sidebar contains links: 'QR Code', 'Scan', 'Generate', 'About', 'What's a QR Code?', 'Privacy', 'Terms', 'Imprint', 'More', 'PDF Mergy', 'Screencastify', and 'Screen Recorder'. The main content area has tabs for 'FREE TEXT', 'URL', 'CONTACT', 'PHONE', and 'SMS' (which is selected and underlined). Below the tabs, there is a 'Number' field containing 'communitynameunsubscribe@gmail.com', an 'Enter Message' field containing 'Take a photo and send to be unsubscribed!', and a 'Dynamic QR Code' link. At the bottom, a green 'START NOW' button is crossed out with a large red 'X'.

Enter Message

Take a photo and send to be unsubscribed!

Do you need to change the content of the QR Code after it has been printed? Or d [Dynamic QR Code.](#)

START NOW

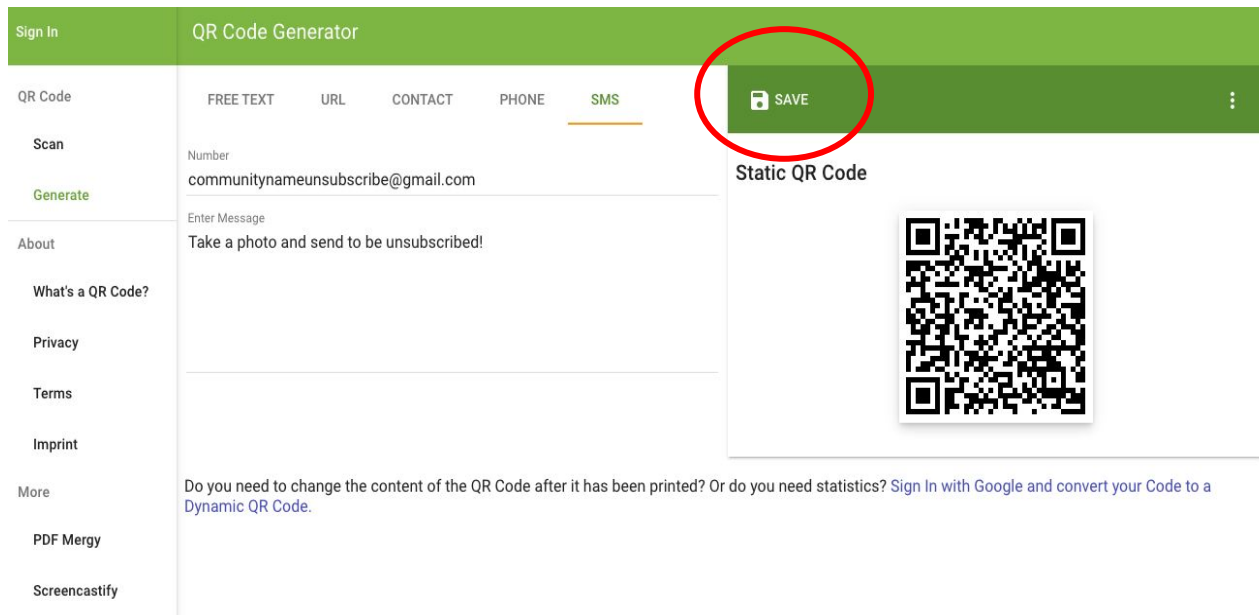

Fill in the gmail address you created:

[communitynameunsubscribe]
@gmail.com

Add a message for all users to see.

Step 3: Download it! You're done!

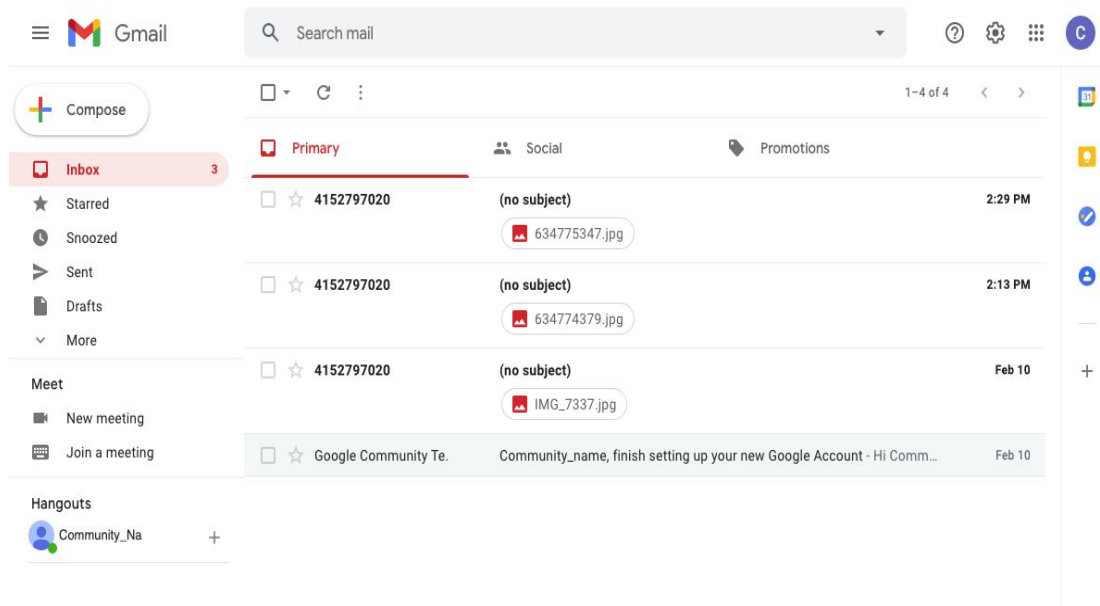

Your unique QR code has been generated. Click Save and store it in your google drive for use in marketing materials! You can always come back here and make a new one if you want to change something!

Don't forget to test it!

Open the camera on your phone, hover over the code, click on the pop-up, Once the texting app is open, just take a photo as usual and hit send. Your image will be sent to your new unsubscribe inbox

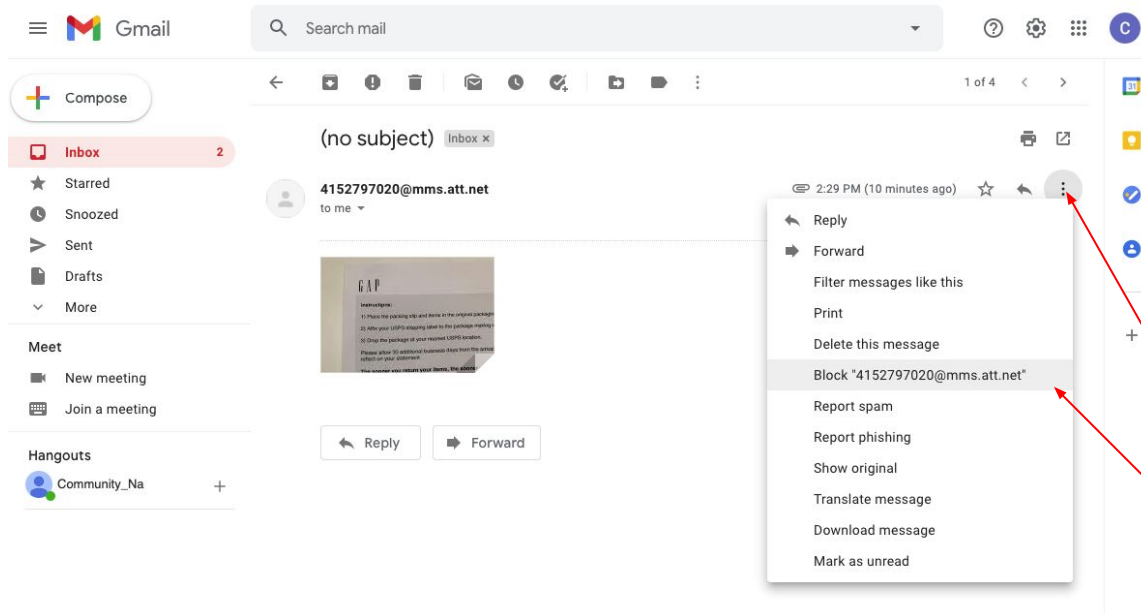

Success!

The messages will look like this with the phone number in the from column.

If you get a message that contains a photo that is not a catalog, block that user and make sure that your trusted adult knows.

Blocking a user

If you get any messages that are not catalogs or related to this project, block that user.

1) open the message

2) click the 3 dots

3) select block user

4) tell your adult advisor
